## Fully Automated Collection

Begins December 4, 2024

Dear Petrolia Resident,

WM will begin using automated trucks for waste and recycling collection. Carts will be collected weekly.

These trucks use automatic lifting arms to empty carts, making collection efficient and safer for the community.

Two 64-gallon carts will be delivered to each residence over two weeks. Deliveries are scheduled from November 18-29.

WM is excited to provide Petrolia residents with a modern collection system.

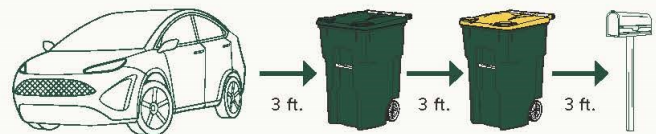

### Important Service Information

**Beginning December 4, 2024, please use your 64-gallon cart with green lid for waste collection and yellow lid for recycling. We encourage residents to optimize the carts and set out for collection when full. Your waste and recycling will be collected weekly.**

#### Proper cart placement for automated collection

Remember to place your carts at least 3 feet apart and 3 feet away from any obstacles (trees, cars, mailboxes, etc.) to allow the automatic arm to lift and empty the carts. Place wheels of cart toward house.

**The cart with yellow lid is exclusively for recycling** - All recyclables should be placed loosely inside the cart. Do not bag your recyclables or place plastic bags or film plastic in the recycling cart. Containers should be rinsed and free of food and liquid. A list of acceptable items are listed opposite page.

**Use the cart with green lid for waste** - Place your cart at the curb by 7 a.m. on your collection day. You are responsible for cart placement and retrieval. All carts will have a RFID code attached to each address.

Have your carts at the curb the night before or **no later than 7:00 a.m.** on your collection day.

We are proud to have been serving job seekers and employers since 2010.

This Employment Ontario program is funded in part by the Government of Canada, the Government of Ontario, and the Windsor Regional Employment Network.

## STORM WATER DRAINAGE AND

### REAR YARD DRAINAGE

When there is significantly higher rainfall than average, this contributes to increased stormwater levels.

Higher stormwater levels can overwhelm any drainage systems, leading to localized flooding and other issues. This is a common challenge many communities face due to changing weather patterns.

Public Works actively monitors these significant events and where able take steps to mitigate the impact including increasing the frequency of drain inspections and clearing.

Residents can help by ensuring that leaves and debris are cleared from storm drains near their properties. Simple measures like this can significantly improve drainage efficiency.

If you notice any blocked drains or flooding, please report it immediately to our public works department at 519-882-2351, we are here to assist you and address any concerns promptly.

The municipality is responsible for maintaining and managing public drainage systems, including streets, public parks, and other community areas. This ensures that the public infrastructure functions properly and prevents flooding on public property.

Drainage issues that occur within the boundaries of private property, such as rear yards, are generally the responsibility of the property owner. This includes ensuring proper grading, maintaining private drainage systems, and addressing any water runoff issues.

The reason for this division of responsibilities is that municipalities are not equipped to manage the individual drainage issues that can arise on private properties. Each property has unique characteristics and needs that are best addressed by the property owner.

Some common measures to improve rear yard drainage include re-grading the yard to ensure proper slope, installing French drains, and using rain gardens or other landscaping techniques to manage excess water.

If your drainage issue is related to water runoff from a neighboring property, we encourage you to discuss the matter with your neighbor to find a mutually agreeable solution.

## HILLSDALE CEMETERY

· NOTICE OF ·

### FALL CLEANUP

We appreciate your assistance with this clean up, please be advised that all wreaths, saddles, flowers, etc. placed at the grave are to be removed before these dates to facilitate the clean up.

Any wreaths, saddles, flowers, etc... that are not weathered or worn will not be removed, this includes items placed for Thanksgiving Remembrance. The Cemetery Manager retains final discretion on what is determined as weathered or worn.

Removed items will be held for thirty (30) days at the cemetery office for collection. Items not collected within thirty (30) days will be discarded. The Corporation shall not be responsible for loss or damage to any removed items.

**Items Placed on Graves after the 1st week of November:**

Artificial wreaths and monument saddles *without* glass or plastic covers may be placed on the lot after the 1st week of November, provided they are securely fastened to the monument. Where there is no monument, it shall be mounted on a stand of at least 30 inches (76.2cm) high and securely anchored to the ground.

**Solar Lights:**

Solar Lights are only permitted at the Cemetery from November and April. Any Solar lights placed in the fall shall be removed annually prior to the end of April.

To preserve the proper appearance of the Cemetery, per By-Law 39-2021

**A clean up will take place annually the 1st week of November** prior to Remembrance Day.

All Interment Right Holders are required to remove wreaths, flowers, etc. to facilitate the clean-up.

**Please remove all items prior to October 31st**

**As a reminder these items are not permitted:**

- Glass or pottery containers of any kind
- Hanging baskets, trees, hedges, shrubs, flowering or other plants
- Borders, fences, railings, walls or cut-stone coping
- Trellises, arches, or iron rods of any kind
- Home made of hand constructed decorative markers ie: metal signage, bird houses, etc.

Thank you for your co-operation, if you have any questions please feel free to contact the Municipal Office at 519-882-2350.

Mandi Pearson  
Clerk/Operations Clerk  
Cemetery Manager
